## Your essential teammate, always by your side

FEDESA is a dentist's essential teammate - equipment you can rely on for doing your job and a team that shares the same passion for dental health.

A dental chair always goes alongside a dentist. It's their best ally for inspiring trust and peace of mind in patients.

At FEDESA, we are part of your team, and we are always at your side so that nothing gets in the way of your patients' treatment.

# Fedesa

## High performance, maximum reliability

**FEDESA has been the market leader in high performance dental units in Spain for over 50 years.**

With our experience in design, processes and manufacturing technology, we are able to make high performance equipment accessible to all kinds of clinics.

All our work is focussed on offering you the best experience, service and durability.

Dentist take centre stage and are the core of all that we do. They have a very evident vocation that defines them as individuals.

This vocation is shared by the whole FEDESA team. A family united by a passion to help professionals in the dental sector.

### **A great, leading company that casts its legacy towards the future**

FEDESA has been the undisputed leader of the Spanish market for decades. As well as leading in terms of market share, we are a great company because of our history and the strength of our human resources.

We do not settle for what has already been done. Rather, we look towards the future with an ambition for continual improvement, innovation and sustainability.

### **High performance dental units for the most discerning professionals**

The most discerning dentists choose FEDESA because our high performance dental units are designed and manufactured to be the essential teammate that makes your job easier for many years to come.

We guarantee the performance and durability of our units as a result of our rigorous production processes, quality control and external certifications.

### **A committed, passionate team that is always there for dentists**

The FEDESA team shares the same values that it has transmitted from generation to generation.

All our work aims to make a dentist's job easier.

# For the most discerning professionals

We design and manufacture high performance dental units in Spain, in which every component has been developed to be comfortable, efficient and long-lasting.

  
**60.000**  
units used by  
dentists from 79  
countries.

  
**15** years  
Useful life of

  
**3.200**

Dentists treat patients with serious oral health problems. They need to diagnose, treat and follow up with patients until they have recovered.

Dentists also conduct preventative treatments to ensure their patients' oral health.

Just like their patients, dentists need quick responses and the ability to react in adverse circumstances.

We conduct maintenance and follow-up to ensure maximum performance for your equipment.

FEDESA is a dentist's essential teammate, always at their side, sharing the same passion for oral health.

## ¿What is the Arco model?

a

The Arco dental unit, Fedesa's latest product, appeared on the market in 2012. The unit, which fits in to the medium-to-high range market niche, brings together all the standard resources needed by modern dentists.

All the components of the unit - dental chair, cuspidor unit, main delivery system and auxiliary tray - boast the most highly advanced systems and technology.

The novelty in this model is that it now includes new configurations for its ranges: PREMIUM, LUX and ECO which, together with the ORTHODONTICS version, can cater for a broad spectrum of users based on their various needs thanks to their user-friendliness and versatility, as well as the reliability of their equipment.

Each one of the three versions of the Arco dental unit can be configured in three different ways: colibrí/continental type, with hanging hoses and with a mobile unit.

## Arco Premium

The **Arco Premium** unit incorporates in its basic configuration the following equipment: an independent control panel for the dental unit and for the control of the micromotor and scaler, LED light on all the instruments, endo induction micromotor, ultrasonic scaler with LED light and a LED type illumination lamp.

Page 14-15

## Arco Lux

The **most standard configuration**, the unit's safety systems ensure incident-free use. Safety system applied to the chair lowering function, to the backrest and to the assistant's workstation.

Incorporates multi-purpose hoses with light, an electric brushless or induction micromotor with light and ultrasonic scaler.

Page 16-19

## Arco Eco

The **Eco version** is a pneumatic unit with the cuspidor and tray attached to the structure of the chair.

The assistant's position features a simple tray with two holders and the main tray includes pneumatic instruments with an ultrasonic scaler.

Page 20-23

## Arco Orthodontics

The **Arco dental unit** also offers a special configuration for **Orthodontic** treatments. All the instruments required for these purposes can be found in the assistant's work position.

This version also features an instrument tray that is fitted on a double-articulated arm that provides a wide range of movements.

Page 24-25

premium

## Arco Premium

This model incorporates in its basic configuration the following equipment: an independent control panel for the dental unit and for the control of the micromotor and scaler, LED light on all the instruments, endo induction micromotor, ultrasonic scaler with LED light and a LED type illumination lamp.

### Control Panel

The control panel enables the control of all the dental unit's functions easily and in an intuitive manner. The parameters of the micromotor (speed, torque, light, direction of rotation, etc.) are also displayed, as well as those of the ultrasonic scaler (functions: general, endo and perio).

### Whiparms

The instrument tray of the hanging hose system features an integrated control panel.

### Headrest

Height adjustable and double articulation headrest. Its ergonomics allow patients to place their heads in the ideal position for the doctor to work.

# F\_Arco lux

## Arco Lux

The most standard configuration, the unit's safety systems ensure incident-free use. Safety system applied to the chair lowering function, to the backrest and to the assistant's workstation. Incorporates multi-purpose hoses with light, an electric brushless or induction micromotor with light and ultrasonic scaler.

### Foot pedal

The unit features a foot pedal to control the speed of the instruments. Optionally, foot pedal can also control movement of the chair.

### Cuspidor of unit

Is designed to include additional elements on assistant tray such as polymerization lamp, pneumatic hose, syringe, etc...  
Optionally can be installed all kind of aspiration systems (wet, dry, amalgam separator, centralized system, etc...).

Cuspidor is also ready to get decontamination system in handpieces, pressurized water tank with selector, hot water, automatic cleaning of aspiration hoses, etc...

# F\_Arco

lux

## Assistant's unit

Includes a tray with four holders on a double-articulated arm that allows the assistant to place the unit in a wide range of positions.

The **mobile unit**, consisting of an instruments tray with a hanging hose system, an independent control panel to control all the unit's functions, has a complete pneumatic/electric set of instruments and a top instruments tray.

It is mounted on wheels that provide easy and lightweight handling as well as a wide range of movements to place the unit in any working position required by the operator.

## Water bowl

The **water bowl** can spin 180° for the benefit of the assistant, making it easier for patients to rinse their mouths. The bowl and faucet of the water supply system enjoy an excellent level of mobility (with a working radius of + - 90°) to adapt to the various needs of patients.

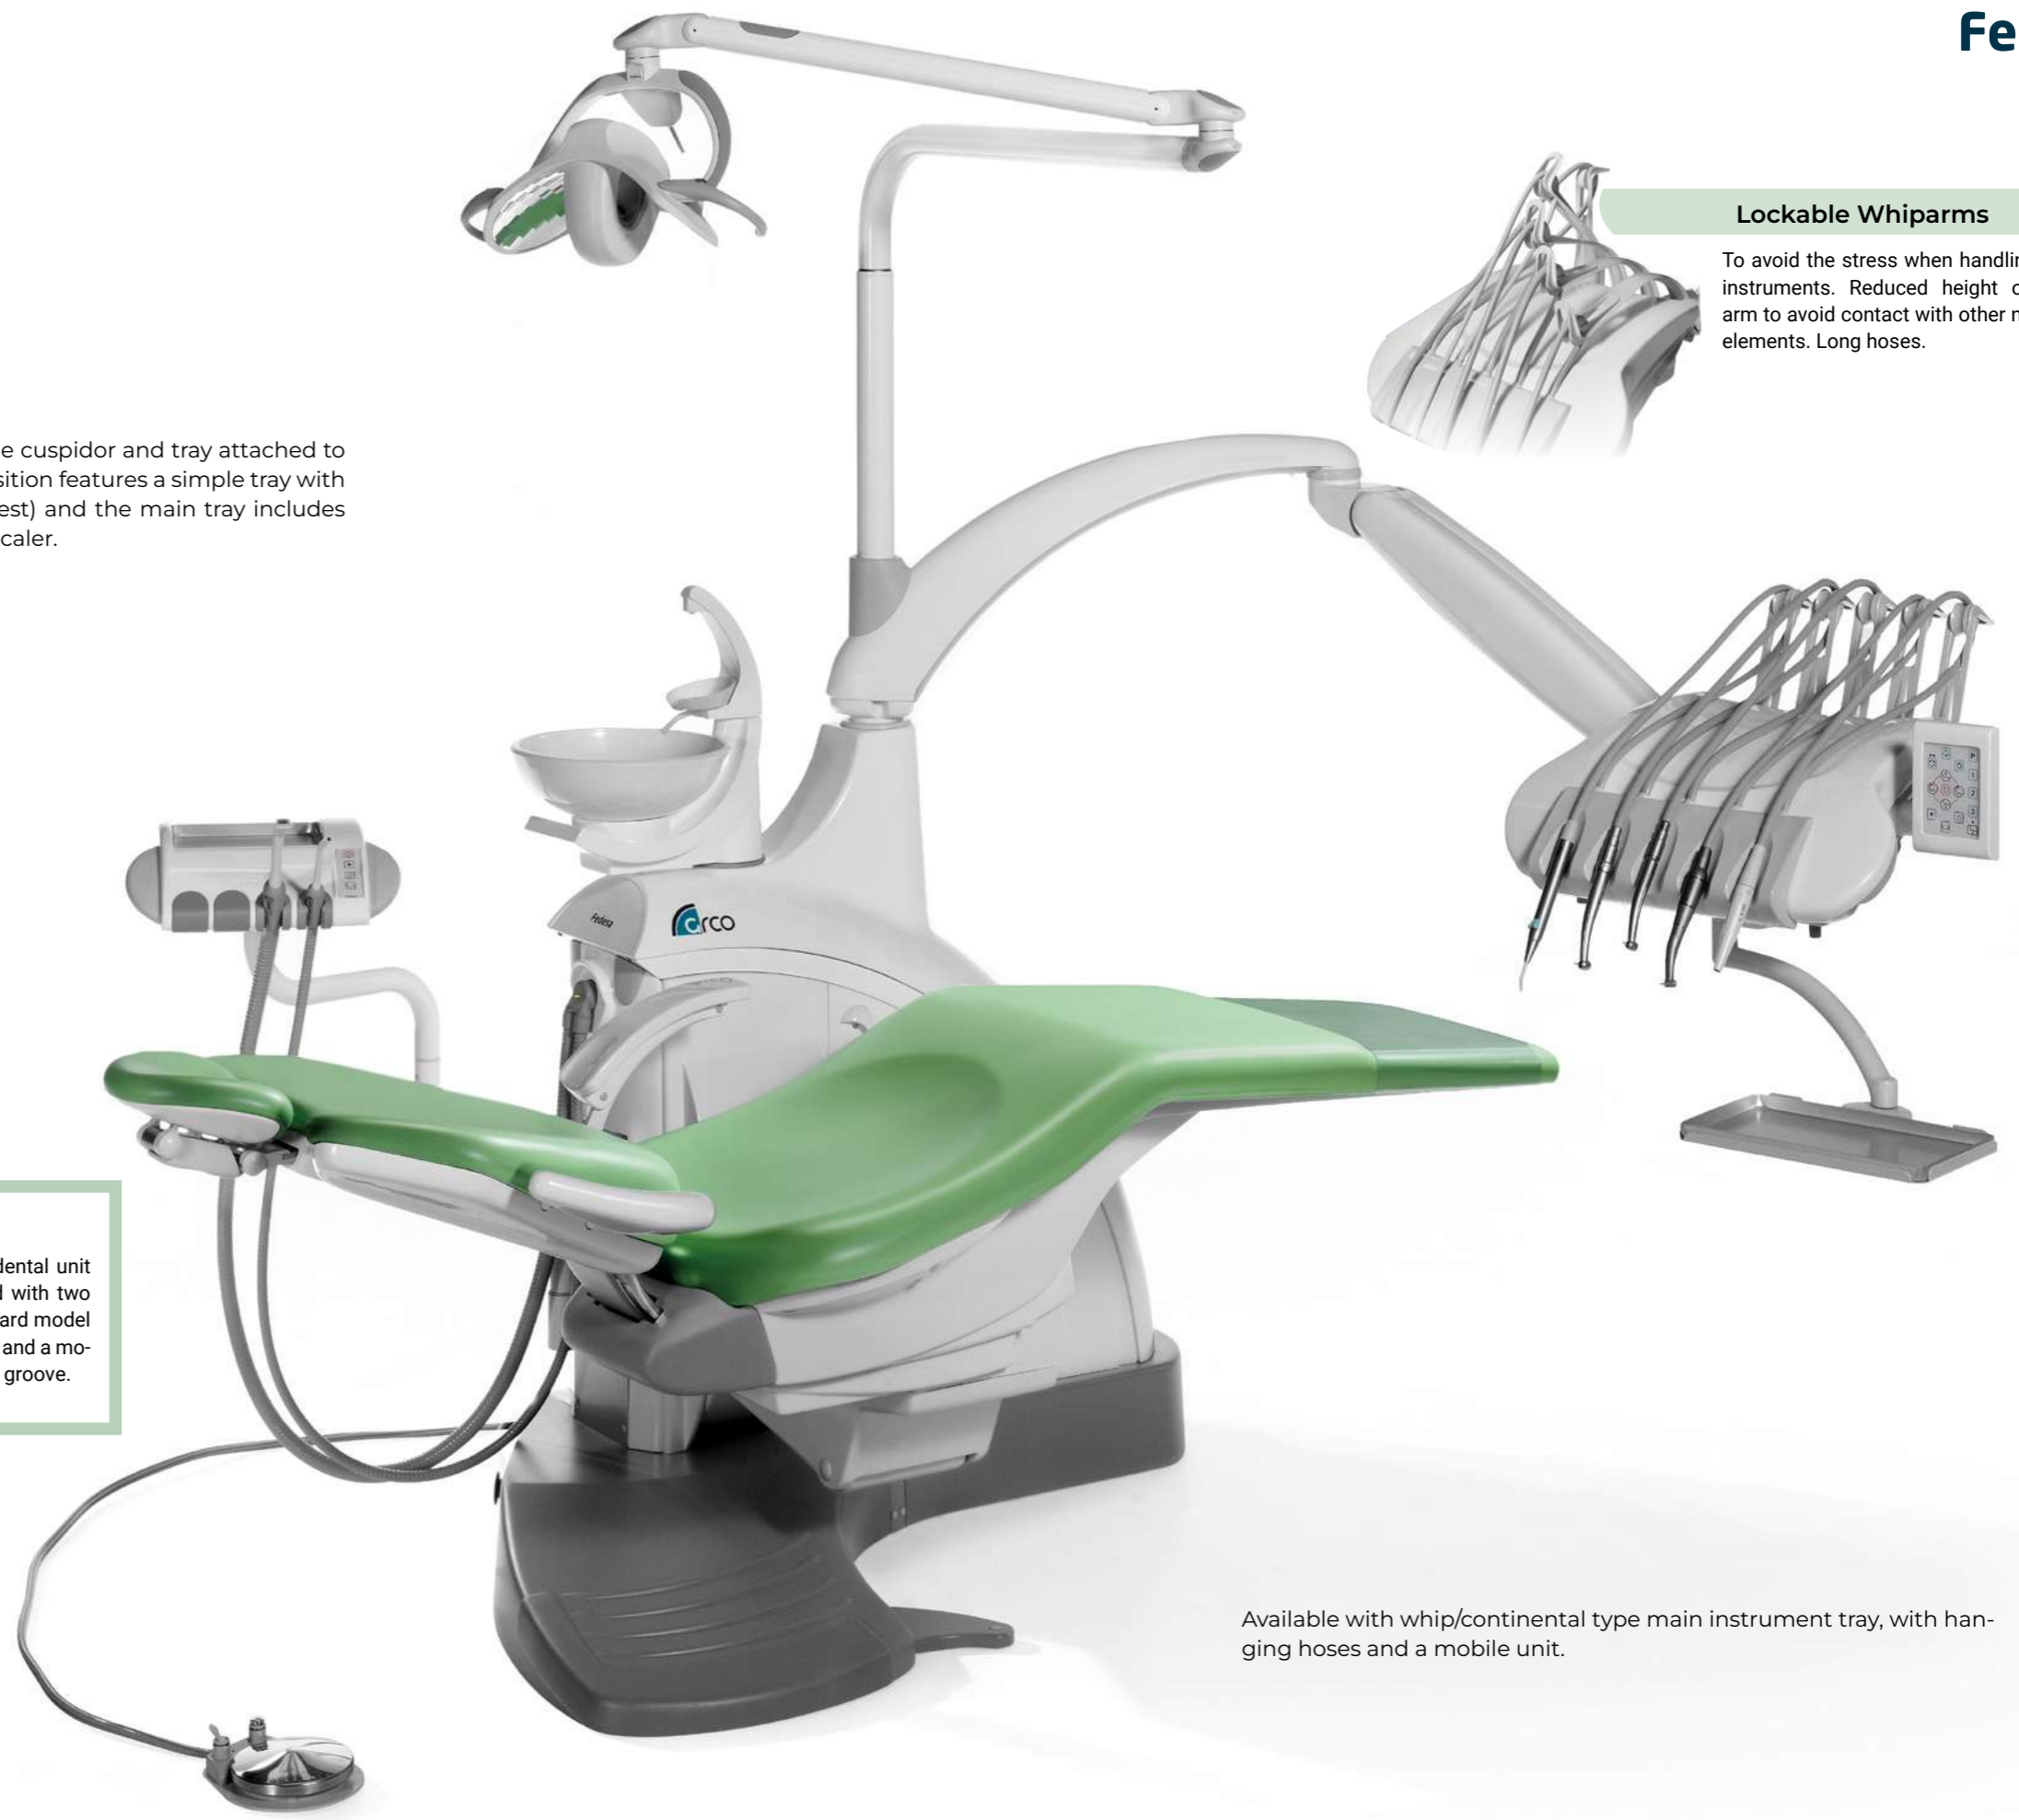

# F\_Arco

eco

## Arco Eco

The Eco version is a pneumatic unit with the cuspidor and tray attached to the structure of the chair. The assistant's position features a simple tray with two holders (four can be provided on request) and the main tray includes pneumatic instruments with an ultrasonic scaler.

### Lockable Whiparms

To avoid the stress when handling the instruments. Reduced height of the arm to avoid contact with other nearby elements. Long hoses.

### The backrest

Optionally, the entire Arco dental unit range can be manufactured with two types of backrest: the standard model that is supplied with the unit and a model with a more pronounced groove.

Available with whip/continental type main instrument tray, with hanging hoses and a mobile unit.

# F\_Arco

eco

It includes a foot pedal to control the speed of the instruments, water selector and chip blower (optionally, you can incorporate a multifunction foot pedal).

## The bowl

The cuspidor assembly incorporates faucets and a bowl. The bowl is made of tempered glass and can be removed to facilitate cleaning, thus providing higher levels of hygiene. The colour of the bowl can be combined with the colour of the upholstery.

Thanks to the design of the chair and backrest, the Astral dental unit allows work to be performed with direct and indirect vision.

# F\_Arco

orthodontic

The Arco dental unit also offers a special configuration for Orthodontic treatments. All the instruments required for these purposes can be found in the assistant's work position. The water and air syringe, rotary instruments and the suction hoses are fitted to a tray with four holders. This version also features an instrument tray that is

fitted on a double-articulated arm that provides a wide range of movements. The unit features a multi-function foot pedal to control the speed of the instruments, as well as the independent movement of the chair.

Available in two versions of articulated arms.

## We are accessible to all kinds of clinics

Dentists take centre stage and they are at the core of all that we do. All our work is focussed on offering you the best experience, service and durability.

With our experience in design, processes and manufacturing technology, we are able to make high performance equipment accessible to all kinds of clinics.

Choosing FEDESA is a matter of trust.

# Finishes

# F\_Arco

## Textile colour finishes that combine with the dental unit

We have selected a wide range of colours for standard use to integrate with modern facilities.

## Upholstery

FEDESA provides upholstery on all its dental units that add to the design of its equipment, improving their convenience and comfort.

Low maintenance flame retardant upholstery without seams, washable and excellent resistance to use.

The extensive catalogue of upholstery colours also comes with viscoelastic upholstery (memory foam).

## Measures of the dental unit

The measurements indicated on the drawing will help you place your equipment in your surgery.

# Options

## F\_Arco

### Illumination lamp

All FEDESA dental units include lighting equipment that can be changed as an option.

EDI Lamp (25,000 lux halogen lamp). MAIA Lamp (35,000 lux LED lamp). ALYA Lamp (50,000 lux LED lamp).
